

**Exam : Cisco 646-361**

**Title : Foundation Express for Account  
Managers(FOUNDAM)**

**Update : Demo**

---

**1.Which capabilities does the Cisco RFID-Ready Network support?**

- A.retrieval and processing of information that is gathered from tagging, printing, labeling, and reader systems
- B.access to enterprise networks when in different service areas
- C.standards-based communications over multiple media types
- D.large enterprises that are primarily fitted with optical networking

**Correct:A**

**2.The Cisco Unified Wireless Network minimizes the TCO and maximizes wireless network uptime by optimizing which two deployment, management, and security features? (Choose two.)**

- A.unified wireless and wired infrastructure for a single point of control for all WLAN traffic
- B.simplified management of central or remotely located access points
- C.extension features to wired network services, such as denial of service prevention and ACLs
- D.threat defense with a robust wired IDS

**Correct:A B**

**3.Whether an organization is a small or midsize business, an enterprise, or a service provider, there are certain key issues that are shared throughout the business environment. Which two choices best describe key customer security concerns? (Choose two.)**

- A.increasing response time
- B.interacting with suppliers
- C.improving operational efficiency
- D.reducing complexity

**Correct:A D**

**4.In a networked supply chain, all members of the supply chain--partners, suppliers, manufacturers, distributors, resellers, retailers, and customers--are connected by an Internet-based network. What are two benefits of a networked supply chain? (Choose two.)**

- A.extends the use of existing communications protocols
- B.reduces overhead costs by accelerating inventory turnover
- C.helps to ensure that all suppliers comply with the most recent security patches
- D.optimizes inventory management to ensure customer satisfaction and retention
- E.combines existing investments in a network infrastructure

**Correct:B D**

**5.What would be able to handle IP telephony and e-business applications concurrently?**

- A.Cisco Catalyst switches
- B.Cisco SOHO routers
- C.Cisco 7000 Series WAN edge routers
- D.Cisco Integrated Services Routers

**Correct:D**

**6.Which market segment uses the Cisco Metropolitan Mobile Network to maintain uninterrupted network and application connectivity for mobile users, independent of location or movement?**

- A.healthcare
- B.retail
- C.supply chain
- D.banking

---

**Correct:C**

**7.Which two business needs are reasons that you might want to recommend a Cisco Integrated Services Router? (Choose two.)**

- A.high-bandwidth, innovative applications such as IP video
- B.a predominantly telecommuter workforce
- C.connecting the LAN to a service provider WAN
- D.an emphasis on performance and security for e-business
- E.a robust LAN intrusion detection system

**Correct:A D**

**8.As businesses add applications to the network, a Cisco systems-level approach benefits these businesses in which two ways? (Choose two.)**

- A.provides expanded dedicated bandwidth across the infrastructure
- B.limits policy adherence as warranted across the infrastructure
- C.shares management tools and services across the infrastructure
- D.incorporates security defense mechanisms across the infrastructure

**Correct:A B**

**9.IP communications, wireless, and security work best as an integrated system within the network infrastructure. Which two statements best describe the benefits of an intelligent, integrated network? (Choose two.)**

- A.An intelligent, integrated network will make the top of the network infrastructure more efficient.
- B.An intelligent, integrated network will adapt to new technology without adding complexity.
- C.An intelligent, integrated network will add an application-level approach.
- D.An intelligent, integrated network will help to manage the escalating costs of systems.

**Correct:B D**

**10.A customer wants to deploy a single-band access point for an 802.11b/g solution now, with the option to upgrade to 802.11a/b/g as network requirements change. Which Cisco access point series is best suited for this requirement?**

- A.Cisco Aironet 1000 Series products
- B.Cisco Aironet 1100 Series products
- C.Cisco Aironet 1130AG Series products
- D.Cisco Aironet 1200 Series products

**Correct:D**

**11.Businesses face three types of economic impacts as a result of hacks or intrusions: immediate, short-term, and long-term. Which two best describe short-term economic impacts that can be caused by a security breach? (Choose two.)**

- A.loss of retail sales
- B.delays in receiving checks
- C.disruption of business operations
- D.loss of suppliers or customers

**Correct:A B**

**12.A network evolves from connectivity to an intelligent network. Which two best explain what influences the move toward network integration? (Choose two.)**

- A.need for advanced service and support

- 
- B.need for more rapid response times
  - C.need for a flexible network infrastructure
  - D.need for a less complex network infrastructure

**Correct:C D**

**13.When a business suffers a security breach, there can be serious ramifications. What is one of the immediate impacts that the business can suffer because of a security breach?**

- A.loss of retail sales
- B.loss of customer faith
- C.disruption of business operations
- D.inability to deliver products or services

**Correct:C**

**14.In a Cisco SDN, every element in the network acts as a point of defense. Which two best describe the features of Cisco SDN? (Choose two.)**

- A.enables automated threat response
- B.enables noncompliant device access
- C.enables endpoint posture enforcement
- D.enables third-party client and server protocols

**Correct:A C**

**15.Because of the systems-level approach, Cisco security can defend against widespread attacks from hackers and viruses. What describes the Cisco network security strategy?**

- A.Cisco Trust Agent
- B.Cisco Self-Defending Network
- C.Cisco Secure Access Control
- D.Cisco Network Admission Control

**Correct:B**

**16.Which Cisco Catalyst switches fit in the access area?**

- A.Cisco Catalyst 2900 Series, Catalyst 7300 Series, and Catalyst 8000 Series
- B.Cisco Catalyst 2900 Series, Catalyst 3700 Series, and Catalyst 4500 Series
- C.Cisco Catalyst 2700 Series, Catalyst 7300 Series, and Catalyst 8000 Series
- D.Cisco Catalyst 2700 Series, Catalyst 3700 Series, and Catalyst 4500 Series

**Correct:B**

**17.In which two ways does an integrated security solution reduce TCO? (Choose two.)**

- A.by enabling businesses to leverage investments in the network
- B.by spending less time addressing attacks
- C.by enforcing policy compliance
- D.through admission control

**Correct:A D**

**18.As customers deploy converged services across their business infrastructures, access routers must integrate security services and IP communications. Which router series is designed to achieve this level of integration?**

- A.Cisco 7000 Series WAN edge routers
- B.Cisco 800 Series routers
- C.Cisco Integrated Services Routers

---

D.Cisco Small Business Series routers

**Correct:C**

**19.Which wireless management product is a centralized network management solution for managing a maximum of 100 Cisco Aironet autonomous access points?**

- A.CiscoWorks WLSE Express
- B.CiscoWorks WLSE
- C.Cisco WCS
- D.Cisco 3800 Series Integrated Services Routers

**Correct:A**

**20.Which two statements best explain why the Cisco Catalyst 6500 Series of switches best fits in the core area? (Choose two.)**

- A.It can offer a broad set of access capabilities.
- B.It can eliminate network security threats.
- C.It can handle high amounts of traffic flow.
- D.It can aggregate data from the distribution-area switches.

**Correct:C D**

**21.What are three benefits of having a security policy in place? (Choose three.)**

- A.reduced risk
- B.reduced downtime and failure
- C.mitigated security threats
- D.improved operational efficiency
- E.high availability
- F.increased services benefits

**Correct:A B C**

**22.What best explains why the banking industry is ready to take advantage of an integrated network infrastructure?**

- A.Many banks are still connecting via dial-up.
- B.Many banks need to consolidate departments and resources.
- C.Many banks find themselves with an obsolete branch infrastructure.
- D.Many banks need back-office process streamlining.

**Correct:C**

**23.What allows for a higher level of systems management capability that reduces the risk of change as well as management and administrative costs?**

- A.policy control
- B.active participation
- C.systems-level approach
- D.application and service optimization

**Correct:A**

**24.In an integrated network, access routers must handle both security services and IP communications. Which router series achieves this integration?**

- A.Cisco 700 Series ISDN Access Routers
- B.Cisco 3700 Series Multiservice Access Routers
- C.Cisco Integrated Services Routers

---

D.Cisco 1700 Series Modular Access Routers

**Correct:C**

**25.The Cisco Catalyst 4500 Series of switches supports which two features? (Choose two.)**

- A.Enhanced Multilayer Software Image
- B.connectivity to multiple types of WAN connections
- C.Cisco IP Telephony CallManager
- D.routing at Layer 3 of the OSI model
- E.integrated PoE distribution

**Correct:D E**

**26.Cisco integrated services create more intelligent and efficient networks by integrating mission-critical services on a single network. What comprises integrated services?**

- A.security, video, and wireless
- B.security, voice, and wireless
- C.security, video, and voice
- D.video, voice, and wireless

**Correct:B**

**27.To ensure device security, Cisco Network Admission Control works with antivirus software on which two endpoints? (Choose two.)**

- A.port
- B.server
- C.laptop
- D.wireless client

**Correct:B C**

**28.A small company that is considering a Cisco converged network solution has asked whether you recommend the Cisco 2800 or 3800 Series Integrated Services Routers. Which two resources would you consult to determine the appropriate product? (Choose two.)**

- A.Cisco Partner Consultative Support
- B.Network Availability Improvement Support
- C.Cisco.com
- D.Cisco Focused Technical Support

**Correct:A C**

**29.Which segment would benefit from integrating the internal systems of a company, including those for inventory, payment processing, marketing, accounts, and order tracking?**

- A.supply chain logistics
- B.banking administration
- C.retail supplier
- D.healthcare administration

**Correct:A**

**30.Which resource would an account manager use to create, place, or manage orders for Cisco products and services?**

- A.Cisco interface and module tools
- B.Cisco direct-access links
- C.Cisco.com

---

D.Cisco network management tools

**Correct:C**
